MISSION IN LINE WITH NEP 2020 AND FIT INDIA MOVEMENT

NEP 2020 envisages integrating sports and physical education with the main school curriculum. By using Curriculum Pedagogical approach, physical activities are utilised with sports to develop various skills such as collaboration, self- initiation, self-direction, self- discipline, teamwork, responsibility and citizenship. As sports mandates regular practice, so developing proper sports infrastructure in the school premises using the resources available can play a pivotal role in ensuring regular practice, thereby achieving the goal of holistic development.

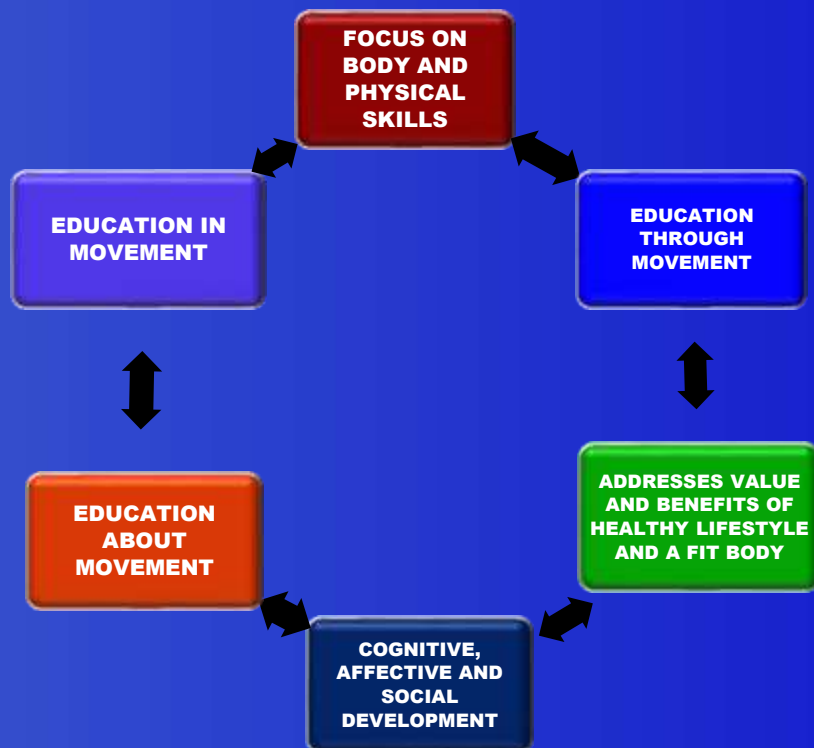

Keeping this objective in mind, Shri Varun Mitra, Deputy Commissioner, KVS Regional office Guwahati and Shri Venkteswar Prasad B, Assistant Commissioner, KVS Regional office Guwahati took the initiative of developing a cricket ground of professional standards at KV CRPF Amerigog to motivate the budding players to take up cricket as a career option. To bridge the gap of current vocational training practices in the sport sector this ground will be a game changer.

Making an effort is in your hands, giving 100% is in your hands.

The commendable success of the Regional Cricket Tournament 2022 boosted the spirit and morale of the cricket enthusiasts.

The development of this ground is indeed an asset for our students to participate in various cricket events and choose cricket as a profession in future and make their nation proud.

The patrons have envisioned a KVS Guwahati Cricket Club which will be subsequently registered with the Guwahati District Cricket Association (GDCA). The talented players from different Kendriya Vidyalayas of the Guwahati Cluster will constitute a Cricket Team to represent the KVS Guwahati Cricket Club and compete in the matches organised by the GDCA. The students will get the chance to represent the Guwahati District, then the state of Assam and so on.

There can be a team for our students with special needs. Cricket for children with special needs isn't just about helping the young sports enthusiasts to fulfill their potential. It is also about creating ways for them to have fun and enjoy a social activity. The Cricket format is very flexible and in future, a team can be formed comprising of all the budding cricket aspirants from different KVs of the North East region from among the students with special needs.

Later on a Girls' Cricket Team will also be constituted to encourage the participation of girls in the sport. Sport is not gender biased. Girl students will be empowered. A Girls' Cricket team is a dream that will turn into reality with the help of professional coaches and proper training in a Cricket Ground of highest standards.

There is no limit to what we, as women, can accomplish.
